ReQuestaPlan is an incredibly useful tool and recent updates have made it an asset to our work.

Mohammad Hasan, Mosaic Building Design

What our clients say

East Devon District Council

East Devon District Council are signposting customers to our website with regards to site location plans. We have been so successful in doing this that I honestly can't remember the last time I had to create one for a customer! One of the reasons the customers are managing to do this for themselves is because requestaplan is so user friendly and they never have any issues using it at all.

Paula Holmes

Thorns Young Architectural

Changing to ReQuestaPlan has made acquiring our OS maps a lot easier, quicker and cheaper. The snap on tools are very simple to use and give a good clear end result making the key areas of the maps stand out. As an agent getting the maps at a much cheaper rate than before keeps the clients happy and satisfied. The overall process is a lot quicker to use as the plans are directly emailed to me.
